## Trichology Distance Learning Training

*The science of hair for hairdressers*

**habia**<sup>®</sup>  
standards • information • solutions  
**CPD approved**

# 100hrs of Habia CPD Approved study for home or college study.

Understanding the science of hair can help you conquer your art and help propel your career. Trichocare's Trichology training is now Habia CPD Approved. There's nothing to stop you starting!

So, a perfect opportunity is now available to all hairdressers interested in a qualification in Trichology as an extra skill for the Salon or College *plus* an extra service for your clients.

This new course can be completed in your own space, at your own pace. Home or College study is ideal and this is reinforced with self assessment exercises, clinical hours and final written examination including a *viva voce* examination.

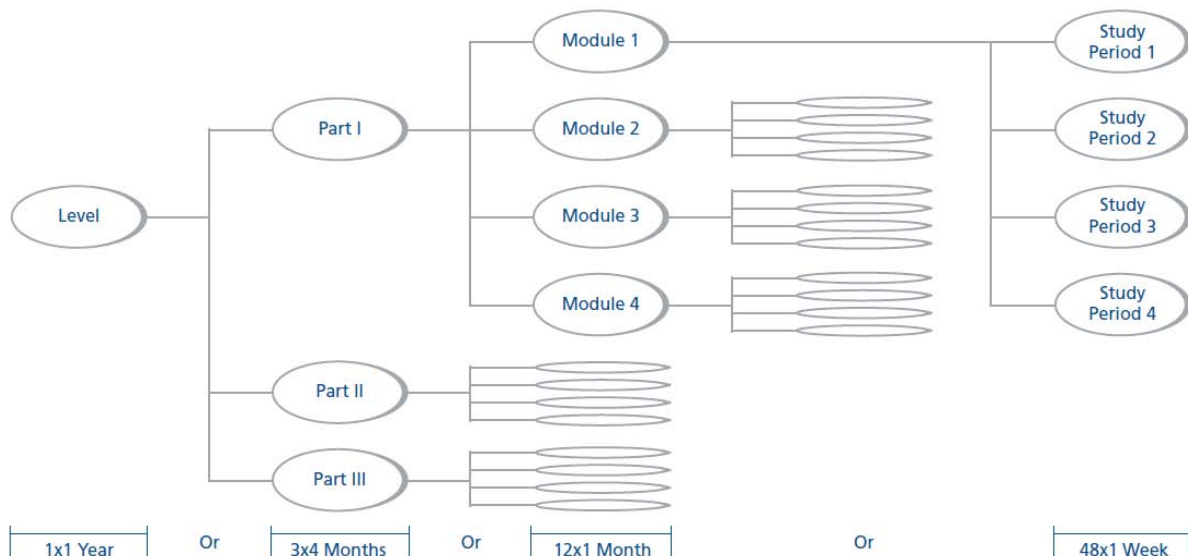

Candidates can then further their experience through a number of FE Colleges offering *pro bono* clinics for additional clinical observation.

## Course Structure and Content

The distance learning course is divided into three Parts. Each Part has four Modules. One Module is made up of four study periods.

### Course breakdown and timeline for each Level

The structure of the Course is identical for each Level, as shown below.

A study period is designed to last approximately one-and-a-half hours making home study for working people achievable with a little extra effort. Study periods comprise a combination of reading and self-assessment exercises. Solutions to self-assessment exercises will be provided with the material for the following Module.

At the end of each Part (four Modules), and before embarking on the following Part, an Educational Director will be available for on-line discussion and help if required.

I have a long background in hairdressing, but having studied Trichology with Trichocare it gave me an exciting new opportunity.

I now have my own Trichology clinic, which I find fascinating and extremely rewarding.

This career advancement is recommended to all hairdressers with an appetite to progress their career and take a step forward to becoming a Trichologist.

Student Case Study:  
Katie Philips

With Trichocare Education, you can change the way you see your clients. And change the way your clients see you.

**The Distance Learning Course is assessed by three means:**

1. Written examination of the theoretical part of the course. This consists of a question paper carrying eight questions. You will be required to answer four of the eight questions. The questions are designed to be answered under timed conditions the four required questions can be adequately answered in three hours. The questions are designed to test your ability to form an argument, based upon the technical information delivered in the course. You will have access to your notes and texts. Since the course is designed as distance learning, the examination can take place at a distance by prior arrangement with the candidate. Papers are returned by registered post or email for marking.
2. Clinical consultation. You will attend 28 (or more if required) hours of clinical consultations and will be examined in the practical environment. You will see clients with real hair and scalp problems and will be asked to carry out a full consultation with several clients with different disorders. You will be asked to make recommendations in each case and provide evidence of reasoning.
3. *Viva voce* examination, you must attend a live panel examination comprising a Trichologist, a hair scientist and an external examiner. You will be provided with a number of scenarios, assisted with historical and photographic evidence, and is asked to determine appropriate courses of action in each case. You will be expected to provide Trichological and general scientific information to justify your answer.

*There are strict codes of ethics and of practice for those who are successful and wish to use Trichology as an added skill in the salon or College – help and advice is always available for those who wish to be registered with Trichocare Education.*
